Local Insight

Local Insight provides instant access to the information you need for the neighbourhoods you care about.

We bring together small-area social and demographic data in one easy to use and intuitive platform. You can explore data for any area you are interested in through maps, dashboards and reports.

Find out more at: localinsight.org

OCSI

We combine expertise in research and technology to support organisations working for social good to make evidence-based decisions. We have worked with more than 250 public and community sector organisations from local to international level.

Our research and services are based on unrivalled knowledge and use of place-based social, economic and demographic data.

Find out more at: ocsi.uk

About the indicators

OCSI routinely collect all small-area data published by more than 50 government agencies and other reputable bodies. We identify key indicators relevant to local authorities, grantmakers and charities to include within this report and the Local Insight platform.

We manage and maintain all the data and provide comprehensive metadata so that you can be confident you are using the most up-to-date data.

How we have identified the area of Central Bedfordshire

This report is based on the “Central Bedfordshire” area, created by Central Bedfordshire Council. The map image of the area is shown at the beginning of this report. The map imagery is provided by Google, using boundary definitions published by the Office for National Statistics (ONS). Statistical and geographic data are sourced from the ONS and are used under the terms of the Open Government Licence v3.0. Contains Ordnance Survey data © Crown copyright and database right [2025].

We use sophisticated aggregation and apportioning methods to calculate the data values used in the charts and tables in this report.

Alongside data for the “Central Bedfordshire” area, we also display data for the selected comparator areas: East of England and England.

Population

Population Composition

The table below provides insight into the population composition in Central Bedfordshire. These population figures provide detail of the structure of the population by broad age bands and sex. This data is taken from the Office for National Statistics (ONS) 2024 Mid-Year Population Estimates.

There are 315,877 people in Central Bedfordshire. This is smaller than the population of East of England (6,576,306) and smaller than the population of England (58,620,101).

Population Composition						
Indicator	Central Bedfordshire		East of England		England	
	Count	Rate	Count	Rate	Count	Rate
Total	315,877	-	6,576,306	-	58,620,101	-
Male	155,048	51.37%	3,224,632	50.37%	28,724,339	50.27%
Female	160,829	53.28%	3,351,674	52.35%	29,895,762	52.32%
0 to 15	62,754	20.79%	1,234,938	19.29%	10,768,248	18.84%
16 to 64	195,667	64.83%	4,028,657	62.92%	36,870,761	64.52%

The Index of Multiple Deprivation (IMD)

The Index of Multiple Deprivation 2025 (IMD 2025) combines information from the seven domains to produce an overall relative measure of deprivation. The boxes below show the IMD score and rank for Central Bedfordshire, East of England and England (average LSOA Score/Rank, where **a higher score and a lower rank indicate that an area is experiencing higher levels of deprivation**). In order to maintain consistency with the LSOA level convention, Rank 1 = most deprived for the average-LSOA rank measures. This differs from the published average rank figures for higher level geographies.

Central Bedfordshire has an IMD rank of 22,346. This means that Central Bedfordshire has lower levels of deprivation compared to East of England (18,860) and lower levels of deprivation compared to England (16,746).

IMD 2025 Score 13.10	IMD 2025 Rank 22,346
(East of England = 17.88, England = 21.81)	(East of England = 18,860, England = 16,746)

Source: Ministry of Housing Communities and Local Government (MHCLG; 2025)

The bar chart below explores this further, showing the proportion of people living in neighbourhoods grouped into deciles according to level of deprivation derived from the IMD. To clarify, all neighbourhoods in England are grouped into ten equal sized groups referred to as “deciles.” Neighbourhoods in Decile 1 fall within the most deprived 10% of neighbourhoods nationally, whilst neighbourhoods in Decile 10 fall within the least deprived 10% of neighbourhoods nationally. 0.00% of people in Central Bedfordshire are living in neighbourhoods ranked within the most deprived 10% of neighbourhoods nationally on the IMD.

Deprivation Deciles

Unemployment

The following data shows the key unemployment indicators.

The table below shows the total number and proportion of people receiving Universal Credit (UC) or Job Seekers Allowance (JSA) by age and sex.

The proportion of working age people receiving benefits for unemployment in Central Bedfordshire was 2.59% in Oct-2025. This is lower than the average across East of England (3.23%) and lower than the average across England (4.03%).

Unemployment Benefit Claimants						
Indicator	Central Bedfordshire		East of England		England	
	Count	Rate	Count	Rate	Count	Rate
Unemployment benefit claimants (Jobseekers Allowance and out of work Universal Credit claimants)	5,075	2.59%	130,045	3.23%	1,485,020	4.03%
Youth unemployment (18-24 receiving JSA or Universal Credit)	995	5.12%	24,865	5.31%	281,845	5.74%

Housing

Average House Prices

The figures below show the mean house prices by accommodation type across Central Bedfordshire and comparator areas for four key dwelling types (detached houses, semi-detached houses, terraced houses and flats). Data on house prices is from the [Land Registry open data, price-paid dataset](#). The Land Registry collect data on all housing transactions, published by individual property and date with the average house-price for all property types calculated on a rolling 12 months total.

The average property price for all dwelling types in Central Bedfordshire was £386,868 between Sep-2024 to Aug-2025. This is lower than within East of England (£389,059) and higher than the average within England (£358,125).

Note: Some small areas may not have had a transaction recorded within the twelve month period leading to gaps in the figures below.

Average House Price

£386,868

(East of England = £389,059, England = £358,125)

Source: UK Land Registry (Sep-2024 to Aug-2025)

Average House Prices

Indicator	Central Bedfordshire	East of England	England
Detached Houses	£555,031	£539,450	£509,868
Semi-Detached Houses	£377,710	£375,565	£324,983
Terraced Houses	£312,019	£320,873	£296,689
Flats	£194,952	£226,464	£313,275

Housing Tenure

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

The chart below provides the proportion of the housing in the area by tenure type. The tenure of a household is derived from the response to the 2021 Census question asking whether the household owns or rents its accommodation and, if rented, from the response to the question asking who is the landlord.

Crime

The following data provides insight into the recorded crime rates in an area. The data is created using the rolling 12 month total of neighbourhood-level incidents for various types of offence as a rate per 1,000 residents. The incidents were located to the point at which they occurred and allocated to the appropriate lower super output area (LSOA). This is based on data for individual crime incidents published via the [Police UK open data portal](#) which has been linked by Local Insight to selected neighbourhoods.

Please note there can be missing data in Police.uk crime counts for certain areas. This is often due to issues with IT system changes at various police forces such as Devon and Cornwall, and Greater Manchester currently, which affects their reporting of figures to Police UK. Please see [Police UK's change log](#) for details of current known issues.

Crime and Anti-Social Behaviour Summary

The table below shows counts and rates for the main crime types and anti-social behaviour incidents between Sep-2024 to Aug-2025.

There were 19,681 total crime offences in Central Bedfordshire between Sep-2024 to Aug-2025, with the overall crime rate being 19,681 per 1,000 population. This is higher than the average across East of England (79.1) and higher than the average across England (91.4).

Crime and Anti-Social Behaviour Summary

Indicator	Central Bedfordshire		East of England		England	
	Count	Rate	Count	Rate	Count	Rate
Total Crime	19,681	62.3	520,061	79.1	5,355,626	91.4

Total Crime Rate

The line chart below shows a time series made up of 12-month totals of neighbourhood-level incidents of criminal offences. The figure is a rate per 1,000 residents. The first data point covers Sep-2018 to Aug-2019 and the final data point covers Sep-2024 to Aug-2025.

The overall crime rate in Central Bedfordshire has decreased from 85.3 per 1,000 people between Sep-2018 to Aug-2019 to 62.3 per 1,000 people between Sep-2024 to Aug-2025.

Total Crime Rate

Health

Disability Benefits

The table below shows a series of indicators related to disability benefits providing the total numbers of claims and proportions within each area that are accessing the support systems available. It includes the following benefits;

- Personal Independence Payment (PIP) can help with extra living costs if you have both: a long-term physical or mental health condition or disability and difficulty doing certain everyday tasks or getting around because of your condition.
- Disability Living Allowance (DLA) is payable to children and adults who become disabled before the age of 65. It is being replaced by other benefits (mainly PIP).
- Attendance Allowance helps with extra costs if you are over 65 and have a disability severe enough that you need someone to help look after you.
- Universal Credit (UC) disabled child entitlement is an increased award for the child element of UC where a child is entitled to a rate of DLA or PIP.
- Universal Credit (UC) limited capability to work entitlement is for when a household member has limited capacity to work due to poor mental or physical health conditions.
-

6.64% of the working-age population in Central Bedfordshire are receiving Personal Independence Payments (PIP). This is lower than the proportion in East of England (8.34%) and lower than the proportion in England (9.6%).

Long-Term Physical/Mental Health Conditions

The boxes below show the number and proportion of people disabled under the Equality Act with different limitations on day-to-day activity and also for those who have a long term physical or mental health condition but are not limited day to day.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

Figures are taken from responses to the 2021 Census and are based on a self assessment of whether or not a person has a limiting long-term illness, health problem or disability which limits their daily activities or the work they can do, including problems that are due to old age.

In Central Bedfordshire, the proportion of people disabled under the Equality Act with their day-to-day activities limited a lot is 5.51%. This is lower than the proportion in East of England (6.64%) and lower than the proportion in England (7.33%).

Day-to-Day Activities Limited a Lot	Day-to-Day Activities Limited a Little	Physical or Mental Health Condition but Day-to-Day Activities Are Not Limited
16,202	27,830	22,637
5.51% (East of England = 6.64%, England = 7.33%)	9.46% (East of England = 10%, England = 9.97%)	7.69% (East of England = 7.23%, England = 6.83%)

Source: Census 2021

Self-Reported General Health

The chart below shows data from Census 2021 on the proportion of residents within each response category from a self-assessment of general health.

0.82% of people in Central Bedfordshire have very bad health. This is lower than the proportion in East of England (1%) and lower than the proportion in England (1.17%).

Self-Reported General Health

Employment

Full-Time and Part-Time Jobs

The chart below shows the number (rounded to the nearest 1,000) and proportion of all employee jobs that are full-time and part-time. Data is taken from the 2024 Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

There are approximately 77,000 full-time jobs and 35,000 part-time jobs in Central Bedfordshire. The proportion of full-time jobs in Central Bedfordshire (77,000) is higher than the proportion in East of England (66.61%) and higher than the proportion in England (69.65%).

Full-Time and Part-Time Jobs

Source: Business Register and Employment Survey (BRES)

Jobs Density

The chart below shows a time series of job density between 2011 and 2024 across Central Bedfordshire, East of England and England. Jobs density reflects the number of jobs located in the local area as a percentage of the working age population in that area.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

Data is taken from the Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

In Central Bedfordshire, the jobs density has increased, from 0.53 in 2011 to 58.77% in 2024. This latest figure is lower than the proportion in East of England (74.07%) and lower than the proportion in England (77.06%).

The BRES definition of an employee is anyone working on the BRES reference date who is aged 16 years or over that the contributor directly pays from its payroll(s), in return for carrying out a full-time or part-time job or being on a training scheme.

Jobs Density

Communities and Environment

Community Needs Index (CNI) Ranks

The chart below shows the overall rank on the 2023 Community Needs Index (CNI), as well as a rank on each of the three CNI domains for Central Bedfordshire, East of England and England. The CNI was developed to identify areas experiencing poor community and civic infrastructure, relative isolation and low levels of participation in community life. The index was created by combining a series of 28 indicators, conceptualised under three domains: Civic Assets, Connectedness and Active and Engaged Community. A lower rank indicates that an area has relatively higher levels of need.

- Civic Assets: measures the presence of key community, civic, educational and cultural assets in a close proximity of the area. These include pubs, libraries, green space, community centres, swimming pools – facilities that provide things to do often, at no or little cost, which are important to how positive a community feels about its area.
- Connectedness: measures the connectivity to key services, digital infrastructure, isolation and strength of the local jobs market. It looks at whether residents have access to key services, such as health services, within a reasonable travel distance. It considers how good public transport and digital infrastructure are and how strong the local job market is.
- Active and Engaged Community: measures the levels of third sector civic and community activity and barriers to participation and engagement. It shows whether charities are active in the area, and whether people appear to be engaged in the broader civic life of their community.
-

Central Bedfordshire has an overall CNI rank of 13,278. This means that Central Bedfordshire has higher levels of community need than East of England (13,371) and higher levels of community need than England (17,040).

CNI Rank

Indices of Deprivation (IoD) Air Quality

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

The boxes below show modelled estimates of air quality based on the concentration of four pollutants: Nitrogen Dioxide, Benzene, Sulphur Dioxide and Particulates. Values for each of the pollutants were based on 2023 air quality data published by the UK Air Information Resource for 1km grid-squares. A higher concentration indicates that an area is experiencing higher levels of deprivation.

Central Bedfordshire's estimated concentration of Nitrogen Dioxide is 0.82. This is lower than the concentration in East of England (0.90) and lower than the concentration in England (1.07).

Nitrogen Dioxide 0.82 (East of England = 0.90, England = 1.07)	Benzene 0.08 (East of England = 0.09, England = 0.09)	Sulphur Dioxide 0.03 (East of England = 0.03, England = 0.04)	Particulates 1.41 (East of England = 1.43, England = 1.39)

Access and Transport

Car Ownership

The table below shows the number and proportion of households according to their ownership of a car or van. This is based on responses to the car ownership question in the 2021 Census which asks information on the number of cars or vans owned, or are available for use, by one or more members of a household. This includes company cars and vans available for private use and is based on details for private households only. Cars or vans used by residents of communal establishments are not counted.

In Central Bedfordshire, 11.27% of households have no access to a car or van. This is less than the proportion without access to a car or van in East of England (16.82%) and less than the proportion without access to a car or van in England (23.54%).

Car or Van Ownership						
Indicator	Central Bedfordshire		East of England		England	
	Count	Rate	Count	Rate	Count	Rate
No Car	13,609	11.27%	442,119	16.82%	5,516,098	23.54%
1 Car	46,621	38.61%	1,092,400	41.56%	9,674,645	41.28%
2 Cars	43,924	36.37%	789,798	30.04%	6,106,970	26.06%
3+ Cars	16,602	13.75%	304,465	11.58%	2,138,372	9.12%
